hydrangea innovators

About us

Hydrangea Breeders Association (HBA) is a specialized hydrangea breeding company with focus on the international potted plant and cut flower production. HBA has its headquarters in The Netherlands and testing locations in The Netherlands, Kenya and Colombia.

We introduced a great number of well-known macrophylla varieties, our true legends. In addition, HBA surprises the hydrangea market with the latest breeding of new paniculata varieties suitable for pots, patios and gardens.

Our Royal series for moderate climate areas as well as a special tropical breeding program cater for the demanding world wide group of hydrangea cut flower specialists.
